- 

Ocean Freight – LCL & FCL

We can offer weekly LCL (less than container load) services to most destinations worldwide.

PSS, FCL (full container load) product includes door to door service on all continents. We have competitive contracts with the all of the world's largest ocean carriers ensuring complete global coverage. These contracts also include special equipment such as open tops and flat racks.

Airfreight & Courier Services

For time sensitive freight, PSS offers airfreight services to and from most international destinations.

We utilize both passenger and cargo air craft's in order to provide our customers with schedule- and carrier-flexibility and we ensure compliance with the world's ever increasing security requirements.

Warehouse & Distribution

PSS has the solution to your warehousing requirements. We offer flexible warehousing for short or long term storage, open yard or temperature controlled along with pick and pack Services.

Warehousing Storage Services:

1. Loading and Unloading

- Container
- Special equipment (FR/OT)
- Lashing, Securing and Dunnage

2. Pick and Pack Services

- Picking
- Small or large units
- Pallets or Cartons
- Packing
- Palletizing and/or Crating
- Labelling
- Fumigation

Crane & Port Equipment Transport Services

At PSS, we specialize in the transport of all types of port and terminal handling equipment. Our experienced project teams manage a variety of assignments, through concentrated engineering services, vessel chartering and a multitude other resources that fit the job. Our collective efforts ensure the sound movement of any port equipment, regardless of size or mass. Our mission is to be known, worldwide, as the top industry choice for crane and port equipment movement.

Oversize & Heavy cargo

Handling large and heavy shipments demands a working partner with experience, know-how and the ability to find the right solution.

RO/RO

PSS has many years experience in offering our clients attractive solution on RO/RO.

We use our broad network of trusted suppliers to come up with the best solution to fit the needs of our clients whether one-time solutions or regular movements of RO/RO cargo.
